Water Invoice Validation Service

How often do you check your commercial water bills and when you do, do you really understand them?

Validating and paying your water invoices takes valuable time and resource. Incorrect bills often go unnoticed and overcharges get paid.

The fact is utility invoices are often calculated incorrectly, or do not reflect the tariff in the contract signed.

From only £5 per month we will:-

- ✓ Validate every utility bill before you pay it
- ✓ Check contract conformity
- ✓ Check previous bills for incorrect charges and seek compensation
- ✓ Check your type of meter
- ✓ Check your VAT charges
- ✓ Provide bespoke reports, cost against budgets and consumption analysis
- ✓ Manage and update the correct supply and site details
- ✓ Assist you with new supplies
- ✓ Handle all supply queries and much more

With 1 in 3 sites revealing a saving opportunity, our comprehensive free business water audit and validation service will save a minimum of 20% of annual water costs and enables efficient monitoring and management of your portfolio.

By analysing patterns in your water usage our Bureau Team can recognise invoicing errors. We'll tell you immediately if problems are identified and resolve them for you. We can report to you as regularly as you want and help you budget realistically for the future.

Sample Monthly Invoice Report

Account Information			Invoice Breakdown				Financial Summary						
Supply Period	Supplier	Invoice Date	Invoice Number	Invoiced Consumption (kWh)	Cost of Gas (p/kWh)	Total Energy Cost	Total Non-Energy Cost	Average Unit Rate (p/kWh)	Invoiced Net	Calculated Total	Invoiced Total	Difference	Status

Our highly sophisticated invoice validation system is able to check supplier invoices against over 250 different charge codes.

Any invoice that fail our checks are investigated by our analysts and rectified with the supplier.

This service provides peace of mind knowing you are paying the correct amount of money every month.
