Keeping you up to date with our latest business developments.

Your Monthly Half Hourly Energy Reports

It's only by finely monitoring your energy use that you can start to see where waste is occurring. And, for that, you need an effective automatic monitoring and targeting system (aM&T).

Powerful, multi-utility energy analysis

Our innovative aM&T service, Catalyst Energy Advantage™, will enable you to do the following:

- Investigate in more detail when and how energy is used.
- Identify and monitor exceptional usage patterns.
- Benchmark energy consumption between buildings or processes.
- Identify potential control setting problems & energy cost penalty.
- Improve forecasting & setting of energy budgets.
- Increase visibility gives greater incentive to reduce & control costs.

Every month we will deliver your comprehensive energy management report directly to your inbox.
