Keeping you up to date with our latest business developments.

## Biomass Boiler Heating Systems

Through the implementation of a Biomass heating and hot water system and the ongoing management of wood fuel supply, Catalyst can provide up to 30% day one savings on your current fossil fuel heating bill.

These significant savings increase over 20 years allowing you to enjoy bigger and bigger savings year on year.

**Catalyst and our partners install, operate and maintain biomass heating systems across the UK**

- ✓ 100% Funding - We pay all of the capital costs associated with the installation of your new biomass system.
- ✓ 100% Funding - We pay all of the ongoing maintenance costs to ensure your new biomass system remains super-efficient.
- ✓ 100% Funding - We manage all of the fuel supply and provide you with a fixed price per unit of energy you use just like other utility providers.

Take the first step away from fossil fuel dependence and start reducing fuel costs.

### Advantages of Biomass Energy

- ✓ No Harmful Emissions: Biomass energy, for the most part, creates no harmful carbon dioxide emissions.
- ✓ Clean Energy: Because of its relatively clean use, biomass energy is good for the environment and good for business.
- ✓ Abundant and Renewable: Biomass products are abundant and renewable.
- ✓ Reduce Dependency on Fossil Fuels: It has developed as an alternate source of fuel for many homeowners and have helped them to reduce their dependency on fossil fuels.
- ✓ Contact Catalyst today to find out more about day one cost and carbon savings.
